

LANCER RELAYS

April 7th, 2011

What a cold and unpleasant night in Eldridge, Iowa! Your performances during the first part of the meet when the weather was not a factor show what you are ready to do. We had 8 seasons bests in the 4x8 relays and 5 PR's. We had two PR's in the 3000- including a top 10 performance by Meg. We had a PR in the 100 and another top 10 time by Claire. However when the weather started to turn our performances fell as well. Certainly part of this is understandable, but there will be times at Conference, Drake Relays, and State Meet that the conditions will be poor and we have to perform anyway. Use this as a learning experience as we move towards our bigger meets in May.
